Complementary: Communication: Sewing

Driving Question: How can I learn to sew to create projects for myself and others?

Course Description:

Do you like designing and creating things? In this complementary you will learn basic hand sewing and machine sewing skills. You will apply these skills and elements of design, such as form, function, cost, environmental impact and aesthetics, in order to create one of a kind projects designed by you! We incorporate a little bit of science, a little bit of math and a whole lot of creativity and design into one fun complementary.

Career Possibilities: *Business, Communication, Technology*

The primary expectation is for students to participate with a positive attitude and effort. Students take part in various mini units including:

Skills

- ❖ Learn to thread a needle and sew on buttons
- ❖ Hand sewing
- ❖ Learn how to thread a sewing machine and sew a variety of stitches
- ❖ Machine sew a pincushion
- ❖ Design and create costumes for actors in the school play

CTF Outcomes

These are the areas we will be focusing on in this complementary

Personal Connections

- CTF is exploring interests, passions and skills while making personal connections to career possibilities

Designing and Creating

- CTF is planning, creating, appraising and communicating in response to challenges.

Collaboration and Personal Growth

- CTF is working independently and with others while exploring careers and technology.
