Exploratory: Yearbook

Driving Question:How can I use digital media to express my creativity and create a document that shows our journey through the school year?

Course Description:

Students will investigate a variety of media and elements of composition to explore the art of photography. They will learn different techniques and mediums to express their creativity. Students will be provided with opportunities to use these skills to aid in the creation of our school's yearbook. Come learn the tricks of the trade, learn to take great yearbook pictures, create interesting page layouts and create a lasting yearbook to capture our year together!

The primary expectation is for students to participate with a positive attitude and effort. Students take part in various mini unit activities to learn how to navigate the LifeTouch Yearbook program in order to create the Fox Run Yearbook.

Supplies

Students are expected to bring the following supplies to class during this course:

- Chromebook & personal supplies
